DEDUSTING SYSTEMS

CLEAN AIR. SAFE ENVIRONMENT. BETTER PERFORMANCE.

EFFICIENT DUST COLLECTION FOR A CLEANER TOMORROW

Our Dedusting Systems are designed to effectively capture and control airborne dust from industrial processes, ensuring cleaner emissions, improved air quality and compliance with environmental norms.

APPLICATIONS

- Steel Plants (Sinter, BF, SMS, CPP)
- Power Plants (Boiler, Coal Handling)
- Cement Plants
- Mineral Processing Industries
- Foundries & Other Process Industries

TYPES OF DEDUSTING SYSTEMS

- ✓ Bag Filter / Bag House
- ✓ Cartridge Filter
- ✓ Wet Scrubber System
- ✓ Cyclone Separator
- ✓ Venturi Scrubber
- ✓ Mobile Dust Extraction System

KEY FEATURES

- High Collection Efficiency
- Robust Design & Long Service Life
- Low Maintenance & Easy Operation
- Energy Efficient & Environment Friendly
- Custom Designed Solutions

BAG FILTER / BAG HOUSE

CYCLONE SEPARATOR

WET SCRUBBER SYSTEM

MOBILE DUST EXTRACTION SYSTEM
