

HYDRAULIC POWER PACKS

POWERING PERFORMANCE.
BUILT FOR RELIABILITY.

COMPACT. EFFICIENT. RELIABLE.

Our Hydraulic Power Packs are designed to deliver consistent performance, high efficiency and long service life. Built with quality components and precision engineering, they are ideal for a wide range of industrial and mobile applications.

HIGH EFFICIENCY

Optimized design for maximum output and energy savings.

RELIABLE PERFORMANCE

Quality components ensure smooth operation and long life.

COMPACT & MODULAR

Space saving design with modular construction for easy integration.

TEMPERATURE CONTROL

Efficient cooling system for stable performance.

LOW MAINTENANCE

Easy access for maintenance and service.

CUSTOMIZED SOLUTIONS

Power packs designed as per customer specifications.

TANK
CAPACITY
2000
LTR

OUR RANGE OF HYDRAULIC POWER PACKS

MINI POWER PACKS

Compact and lightweight for low power applications.

STANDARD POWER PACKS

Versatile and efficient for general industrial use.

HEAVY DUTY POWER PACKS

Built for continuous operation in demanding conditions.

MOBILE POWER PACKS

Designed for mobile and vehicle applications.

CUSTOM POWER PACKS

Tailor-made solutions as per application requirements.

TYPICAL APPLICATIONS

- Hydraulic Presses
- Injection Moulding Machines
- Material Handling Equipment
- Construction & Earthmoving Equipment
- Metal Forming Machines
- Hydraulic Cylinders & Actuators
- Machine Tools
- Marine & Offshore Applications
- Power Plants
- Test Rigs & Special Purpose Machines

TECHNICAL SPECIFICATIONS

Power Range	0.37 kW to 75 kW (0.5 HP to 100 HP)
Pressure Range	Up to 350 bar
Flow Range	Up to 500 LPM
Tank Capacity	2000 Liters
Mounting	Horizontal / Vertical
System Type	Open Circuit / Closed Circuit
Cooling	Air Cooled / Water Cooled
Voltage	220V / 380V / 415V, 50 Hz (3 Phase) or as per requirement
Oil	Mineral Oil / Biodegradable Oil
Filtration	Suction / Return Line Filtration
Control Voltage	12V DC / 24V DC / 110V AC / 220V AC

KEY COMPONENTS

OPTIONS & ACCESSORIES

- ✓ Heat Exchanger / Oil Cooler
- ✓ Accumulator
- ✓ Electrical Control Panel
- ✓ Variable Displacement Pump
- ✓ Remote Control (Hand Held / Cable)
- ✓ Breather with Desiccant
- ✓ Low Oil Level / Temperature Switch
- ✓ Flow Control Valve
- ✓ Pressure Switch / Transducer
- ✓ Custom Paint & Branding

OUR COMMITMENT

We are committed to provide reliable, efficient and cost-effective hydraulic power solutions that ensure maximum uptime and productivity for your operations.
